Rulemaking 02-01-011

**WORKING GROUP PARTIES' JOINT PETITION FOR MODIFICATION OF  
DECISION 06-07-030, OPINION REGARDING DIRECT ACCESS AND DEPARTING  
LOAD COST RESPONSIBILITY SURCHARGE OBLIGATIONS**

**I. INTRODUCTION**

Pursuant to Rule 16.4 of the California Public Utilities Commission's (Commission) Rules of Practice and Procedure, Southern California Edison Company (SCE), Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), The Utility Reform Network, the Alliance for Retail Energy Markets, California Large Energy Consumers Association, City of Rancho Cucamonga, City of Corona, South San Joaquin Irrigation District, California Manufacturers & Technology Association (collectively, the Working Group Parties) jointly file this Petition for Modification of Decision 06-07-030, Opinion Regarding Direct Access and Departing Load Cost Responsibility Surcharge Obligations, issued July 20, 2006 (the Decision).<sup>1</sup> The Decision resolved various outstanding issues related to the cost responsibility surcharge (CRS) methodology applicable to non-bundled customers, including Direct Access (DA) and Municipal Departing Load (MDL) customers within the territories of the investor-owned utilities (IOUs). For reasons discussed herein, the Working Group Parties request that the Commission modify the Decision to:

1. Adopt Resource Adequacy Generation Capacity (RA/capacity) adders for 2007 of \$7/MWh for SCE and SDG&E, and \$4/MWh for PG&E, based on the consensus of the Working Group Parties, and remove erroneous statements that the Working Group Parties agreed to base the RA/capacity adders on the annual capital costs of a combustion turbine;

---

<sup>1</sup> This Joint Petition for Modification addresses only the specific subject matter identified herein, and the Working Group Parties expressly reserve their rights with respect to all other CRS issues, including billing and collection issues.

2. Adopt line loss factors of 6.0% for PG&E and 5.3% for SCE for use in the 2007 market benchmark calculation. These line loss factors have been agreed to by the Working Group Parties;
3. Modify the calculation of the price benchmark for 2007 to reflect the availability of published prices for both on-peak and off-peak future power deliveries; and
4. Modify Table 3C of the Decision for SCE and SDG&E as shown in **Attachment A**, and adopt the results in Modified Table 3C for 2003 – 2006 for SCE, and 2006 for SDG&E, as the CRS applicable to MDL customers not exempt from the DWR Power Charge component of the CRS.<sup>2</sup>

## **II. DISCUSSION**

### **A. The Decision Should be Modified to Adopt the Working Group Parties' Consensus on 2007 Generation Capacity Adder Values**

In adopting a forecast market price benchmark methodology for calculating the Indifference Rate, the Decision acknowledged the need for a RA/capacity adder to capture the cost of complying with resource adequacy requirements.<sup>3</sup> The Decision stated that no capacity market is presently available to provide transparent RA/capacity adders.<sup>4</sup> Thus, for 2006 the Decision adopted the parties' consensus for RA/capacity cost adders, which were negotiated as part of the workshop report discussions.<sup>5</sup> For 2007 and beyond, the Decision directed the Energy Division to coordinate a meeting of the Working Group to discuss RA/capacity adders based on publicly reported transactions in a California capacity market or another suitable public index once available.<sup>6</sup>

On August 7, 2006, the Energy Division convened the Working Group to discuss RA/capacity adders for 2007 and beyond. Follow-up calls were held on August 16 and 18, 2006. The Working Group Parties acknowledged that RA/capacity adders would need to be negotiated for 2007, as there is no capacity market yet available to provide transparent values, and the IOUs require 2007 RA/capacity adders by November 2006 to file advice letters or updates to their Energy Resource Recovery Account (ERRA) filings to establish the Indifference Rate for 2007, as well as the Power Charge Indifference Adjustment (PCIA) and Ongoing Competition Transition Charge (CTC) components of the CRS. Accordingly, the

---

<sup>2</sup> PG&E will file a separate petition to modify the Decision with respect to Table 3C as it applies to PG&E.

<sup>3</sup> See the Decision, mimeo at pp. 10-13 and Finding of Fact 12.

<sup>4</sup> See *id.* at p. 8-9.

<sup>5</sup> See *id.* at p. 12 and Ordering Paragraph 3.

<sup>6</sup> See the Decision, mimeo at pp. 12 and OP 4.

Working Group Parties reached the following consensus for 2007 RA/capacity adders: \$7/MWh for SCE and SDG&E, and \$4/MWh for PG&E.

The Working Group Parties have also agreed to resume discussion in the summer of 2007 to determine the RA/capacity adders for 2008 and beyond. If a functioning and transparent capacity market or a suitable public index becomes available, the Working Group Parties will recommend, for 2008 and beyond, a RA/capacity adder based on such a market or public index. Otherwise, the RA/capacity adder will continue to be determined based on the Working Group Parties' consensus until such market or public index becomes available.

Given the present lack of transparent RA/capacity adders, and the IOUs' need to incorporate RA/capacity adders in their November 2006 filings to establish the 2007 Indifference Rate, PCIA and CTC, the Decision should be modified adopt the Working Group Parties' consensus for the 2007 RA/capacity adders of \$7/MWh for SCE and SDG&E, and \$4/MWh for PG&E. To effectuate the requested modification, the Working Group Parties recommend the following changes to the Decision:

At page 12 of the Decision, Section II.B.2:

"For 2006, we adopt the parties' consensus for a RA/capacity cost adder of \$8/MWh for SCE and \$4/MWh for PG&E, and for 2007, \$7/MWh for SCE and SDG&E, and \$4/MWh for PG&E, which will be added to the average strip price."

At Ordering Paragraph 3:

"For 2006, the Resource Adequacy Generation Capacity (RA/capacity) cost adder will be \$8/megawatt-hours (MWh) for SCE and \$4/MWh for PG&E, and for 2007, \$7/MWh for SCE and SDG&E, and \$4/MWh for PG&E, which will be added to the average strip price."

The Working Group Parties further request that the Decision be modified to eliminate any statements that the Working Group Parties agreed to base the RA/capacity adders on the annual capital costs of a combustion turbine (CT), since the Working Group Parties never reached such agreement. Accordingly, the Decision should be modified as follows:

At page 8 of the Decision:

"Parties also agree that a Resource Adequacy/Generation Capacity ("RA/capacity") cost adder should be incorporated for each IOU, ~~based on the annual capital costs for a combustion turbine.~~"

At Appendix 1, Fourth Bullet:

~~“Add a capacity/resource adequacy adjustment to the forward NP15/SP15 futures prices. The capacity/resource adequacy adder shall equal the annual carrying cost of a combustion turbine, as reported in the CEC’s *Comparative Cost of California Central Station Electricity Generation Technologies*, (June 2003, CEC report 100-003-01), Appendix D, adjusted for inflation. Using the Bureau of Economic Analysis’ implicit price deflator for gross domestic product (as reported in the EIA’s *Annual Energy Outlook* Table 1.1.9), the 2005 capacity/resource adequacy adder equals \$9.44/MWh.”~~

**B. The Decision Should be Modified to Reflect the Availability of More Complete Published Futures Prices for the Benchmark Used in Calculating the Indifference Charge**

The Decision’s Adopted Procedure for Deriving Market Benchmark, set forth in Appendix 1, states that average published prices for future delivery of power will be multiplied “by .87 to account for the fact that the benchmark is effectively for baseload power while the future price assumes a 6x16 product.” Since the adoption of the Decision, futures prices for off-peak hours for the coming year have begun to be published. Therefore, it is appropriate to modify the procedure to incorporate published on-peak and off-peak power prices, with the average price based on a weighted average of on-peak and off-peak prices. Such a modification is both appropriate and consistent with the intent of the Working Group to recommend a procedure that maximizes use of published data.

To effectuate this modification, the Working Group Parties recommend that footnote 12 of the Decision be eliminated in its entirety as no longer necessary, and that the first sentence of the first bullet point on Page 1 of Appendix 1 be amended as follows:

“Use an weighted average of Megawatt Daily published market indices for a one-year strip of on-peak and off-peak power prices for the coming calendar year for NP15 and SP15 published over the period October 1 through October 31 of the year prior to that being considered; the weighting will be done by the number of on-peak and off-peak hours in the particular year.”

**C. The Decision Should be Modified to Adopt Line Loss Factors for SCE and PG&E for the Market Price Benchmark Calculation for 2007**

The Decision’s Adopted Procedure for Deriving Market Benchmark, set forth in Appendix 1, adjusts the sum of average strip price and the RA/capacity adder for line losses to ensure that the benchmark reflects the same average line losses that are inherent in the delivered power prices, keeping the comparison of the portfolio prices to the market price

benchmark consistent.<sup>7</sup> The Decision noted that line loss values had not yet been agreed upon by the Working Group Parties, but were estimated to range from 6.0%-8.5% for PG&E, 5.3%-8.4% for SCE, and 4.3% for SDG&E.<sup>8</sup>

At the Working Group meetings convened on August 7, 16 and 18, 2006, the Working Group Parties discussed the line loss factors for SCE and PG&E, and agreed that the lower range of the estimates contained in the Decision for line loss factors should be used in the 2007 market price benchmark calculation; specifically, 6.0% for PGE and 5.3% for SCE.

Accordingly, the Working Group Parties request that the Decision be modified to adopt a line loss factor of 6.0% for PGE and 5.3% for SCE for the 2007 market price benchmark calculation. To effectuate this modification, the Working Group Parties recommend that Appendix 1 be revised as follows:

“Adjust for line losses. The portfolio prices against which the benchmark will be measured are at the customer meter. Therefore, to keep the comparison consistent, the benchmark shall reflect the same average line losses that are inherent in the delivered power prices. These values have ~~not yet~~ been agreed upon by the Working Group as follows: ~~Lines loss estimates range from 6.0% - 8.5% for PG&E, 5.3%-8.4% for SCE, and 4.3% for SDG&E.~~”

**D. Table 3C of the Decision Should be Modified for SCE and SDG&E as Shown in Attachment A Hereto and the Calculations for 2003 – 2006 for SCE and 2006 for SDG&E in Modified Table 3C Should be Adopted as the CRS Applicable to MDL Customers Not Exempt from the DWR Power Charge**

The Decision, in Appendix 6, included in Table 3C the results of the Working Group Parties’ calculations of MDL CRS obligations (both actual and illustrative) for years 2003 – 2011. The Working Group Parties recommend that the Table 3C be modified for SCE and SDG&E as shown in Modified Table 3C **Attachment A** hereto, which contains the following revisions:

1. A notation of “Adopted” CRS calculations has been added for years 2003 – 2006 for SCE, and for 2006 for SDG&E;
2. A notation of “Illustrative” CRS calculations has been added for years 2007 – 2011;
3. Footnote has been added to clarify that the Commission did not adopt a 2003 CTC for SCE. The 2004 - 2006 CTC is the annual system average.

---

<sup>7</sup> See Appendix 1, at bullet point “Adjust for line losses.”

<sup>8</sup> See *id.*

4. Certain CTC results have been revised:
  - a. SCE's 2004 and 2005 CTC have been revised because the CTC values shown in Table 3C of the Decision are those applicable to DA customers who mostly consist of large commercial and industrial customers. The system average CTC is more appropriate to apply to MDL customers because the MDL customer mix is similar to SCE's bundled customer mix.
  - b. SDG&E's 2006 CTC has been revised.
  - c. Similar to Table 3C in the Decision, in Modified Table 3C, the CTC for SCE and SDG&E for 2007 - 2011 is the same as the revised 2006 CTC, and is included only as an illustrative figure.
5. MDL Power Charges have also been revised for the following reasons:
  - a. SCE's 2004 and 2005 MDL Power Charges have been revised to reflect the change in the CTC.
  - b. SDG&E's 2006 MDL Power Charge has been revised to reflect the change in the CTC.

An SCE MDL CRS billing sample based upon Modified Table 3C is attached hereto as **Attachment B**. The SCE billing sample is intended to clarify how SCE's MDL CRS accrual rates are applied.

To effectuate the requested modification of Table 3C, the Working Group Parties recommend that Modified Table 3C and the SCE billing sample be included in Appendix 6 of the Decision, and that the Decision include the following revisions:

On page ii:

Add "Appendix 6: Departing Load Obligations" at the end of the list of appendices.

On page 30, Section III.B.2:

Add the following sentence at the end of the paragraph: "We adopt the results of Working Group Parties' CRS calculations for 2003 – 2006 for SCE, and 2006 for SDG&E, set forth in Modified Table 3C of Appendix 6, as the CRS applicable to MDL customers not exempt from the DWR Power Charge."

At Ordering Paragraph 19:

Add the following sentence at the beginning: "For 2003 – 2006 for SCE, and 2006 for SDG&E, the CRS obligations of MDL customers not exempt from the DWR Power Charge are set forth in Modified Table 3C of Appendix 6."

### III. CONCLUSION

For the foregoing reasons, the Working Group Parties respectfully request that the Decision be modified consistent with the recommendations herein to:

- Adopt Resource Adequacy Generation Capacity adders for 2007 of \$7/MWh for SCE and SDG&E, and \$4/MWh for PG&E, based on the consensus of the Working Group Parties;
- Adopt line loss factors of 6.0% for PG&E and 5.3% for SCE for use in the 2007 market benchmark calculation. These line loss factors have been agreed to by the Working Group Parties;
- Modify the calculation of the price benchmark for 2007 to reflect the availability of published prices for both on-peak and off-peak future power deliveries; and
- Include Modified Table 3C and the SCE billing sample in Appendix 6 of the Decision, and adopt the results in the Modified Table 3C for 2003 – 2006 for SCE, and 2006 for SDG&E, as the CRS applicable to MDL customers not exempt from the DWR Power Charge.

Respectfully submitted,

MICHAEL D. MONTOYA

			2004	2005	2006	
1	<b>MDL Sales</b> (MWhs) (Note 1)	Supplied by MDL	20,000	30,000	40,000	
	<b>MDL CRS Accrual Rates</b> (\$/MWh):					
2	Power Charge Indifference Adjustment (PCIA) (Notes 2, & 3)	Modified Table 3C	\$ 13.21	\$ 6.43	\$ (23.12)	
3	Competition Transition Charge (CTC)	Modified Table 3C	3.21	0.33	10.24	
4	Undercollection Elimination Adjustment (Notes 3 & 4)	D. 06-07-030	-	-	-	
5	Indifference Rate (Note 3)	[2] + [3] + [4]	\$ 16.42	\$ 6.76	\$ (12.88)	
6	DWR Bond Charge	DWR Revenue Requirement	4.93	4.59	4.85	
7	<b>Total Rate</b>	[5] + [6]	\$ 21.35	\$ 11.35	\$ (8.03)	
8	<b>Obligation (\$)</b>	[1] X [7]	<b>\$ 427,000</b>	<b>\$ 340,500</b>	<b>\$ (321,200)</b>	<b>\$ 446,300</b>

Notes:

1. New MDL customer agreed to receive load from the POU in 2003 and began receiving load in 2004.
2. Consistent with the timing set forth in D.06-06-067 the DWR power charge was renamed the PCIA.
3. D. 06-07-030 provides:
  - (i) MDL CRS obligation shall be determined on a prospective basis in a manner consistent with the findings and directives in this decision;
  - (ii) a negative indifference charge may be used to offset any existing positive CRS undercollection until such time as the CRS undercollection is eliminated for each IOU; and
  - (iii) the indifference charge should remain nonnegative after the CRS undercollection is eliminated, and negative rates should not be used to offset other CRS components once past CRS undercollections have been paid off.
4. As of December 31, 2006, the SCE DA CRS is expected to remain undercollected.

**CERTIFICATE OF SERVICE**

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of WORKING GROUP PARTIES' PETITION FOR MODIFICATION OF DECISION 06-07-030, OPINION REGARDING DIRECT ACCESS AND DEPARTING LOAD COST RESPONSIBILITY SURCHARGE OBLIGATIONS on all parties identified on the attached service list. Service was effected by one or more means indicated below:

Transmitting the copies via e-mail to all parties who have provided an e-mail address.  
First class mail will be used if electronic service cannot be effectuated.

Executed this **3rd day of November, 2006**, at Rosemead, California.
